PlanForge
CONSULTING

Pay your team. Not the IRS.

A 401(k) designed so tax credits and deductions cover its cost. Purpose-built for businesses with 10 to 75 employees. Here is the whole story on one page. The full guide has the details, updated for 2026 limits. planforge401k.com/owner-guide

YOU, PERSONALLY

$72,000

can land in your own account in 2026, your deferral plus what the company adds on top. Add $8,000 at age 50, or $11,250 at ages 60 to 63. Our designs direct as much of that to the owner as the rules allow.

YOUR BUSINESS

$265,000

available in SECURE 2.0 tax credits over a plan's first five years. Deductions and payroll-tax savings stack on top.

JUST YOU?

$144,000

a year as a couple through a solo 401(k), $72,000 each for you and a spouse on payroll, with almost none of the administrative weight of a company plan.

SECURE 2.0 CREDITS CAN PAY YOU BACK FOR STARTING A PLAN

$1,500 for automatic enrollment, $500 a year for 3 years

$15,000 in startup costs, 100% covered for teams of 50 or fewer

$1,000 per eligible employee per year for your contributions, first 5 years

Credits reduce your tax bill dollar for dollar. Stacked together, they are the engine behind the net-zero 401(k).

A REAL EXAMPLE

A Texas business with two owners and 44 employees. After credits, deductions, and forfeitures, the plan costs less than zero and saves up to $57,104 vs a typical 3% safe harbor design. Explore it at planforge401k.com/tnt-ref
